DISPATCH NO. 101-1291

SECRET  
CLASSIFICATION

TO : Chief, Foreign Division-N  
FROM : Chief of Station, Karlsruhe C/32a  
SUBJECT GENERAL: *Organization 114*  
MESSAGE: *CODEM - Introduction - a Study of Organization 114*  
REF : MEL-4-3212

DATE: 17 February 1950

What follows is by no means the complete story of 114 or its personnel or operations. It is in the nature of a preliminary survey of material on which further study is to be based. It is hoped, however, that sufficient material is at hand in the present report to enable a tentative assessment of 114's capabilities and potentialities to determine whether they are of positive value or an element of danger.

1. Budget:

In December 1949 Organization 114 received DM 60,000. In January 1950, the sum was DM 56,000. Organization 114 receives DM's only; no foreign currencies are issued. In addition, supplementary one-time payments are sent to accomplish specific missions. For example, the tapped courier line in the Ruhr made mention of one ~~Günther~~ <sup>ISMER</sup> being the chief of all illegal (KP or Cominfor?) work in the Aachen independently, a field organization of 114 reported that a man named ~~Guenther~~ <sup>ISMER</sup> traveled between Frankfurt and Saarbrücken, and it was further mentioned that the man had recently attended some meeting in Budapest. To further clarify the person and actions of ISMER and to permit ICO to explore the tantalizing possibility of ~~GUNTHNER~~ and ~~Guenther~~ ISMER being identical (and thus serving as a check on the questionable Ruhr material), ICO on 10 February 1950 sent 114 the sum of DM 1,000.

2. Locations (far from complete, extracted from MEL-4-1017):

SECRET

- 2 -

a. Munich-Allach, Vogelohstrasse 3 and 11. Field office and billets. Presumably the location of the southern wing of 11A's SV 2601.

*XReut Oskar @PRULE*  
b. Koenigsbach, Langenburgerstrasse 35, field office and billets. This is near Bad Margentheim, Wurttemberg-Baden, and is the field office of 11A (SV 2603), the CB man of 11A.

c. Although the official COMINT figure on the 7/0 strength of 11A amounts to 217 people, the totals reached by undersigned, on the basis of information from the paragraphs below, amount to 250 people. Within this group can be 60 so-called staff personnel, which accounts for 11A headquarters' and field units' office personnel, typists, card file clerks, drivers, couriers, handymen, etc. In addition, 11A has 66 agents in Western Germany and 32 in Eastern Germany. Further, other "carded sources" but not in agent status, amount to 36 in Western Germany and 12 in Eastern Germany.

d. Organization 11A's headquarters staff. (from MIL-4-1084):

a. LEITZ	Orts	Chief
b. Dr. MAISE (DELIUS-WAGNER)		Deputy
c. HESS		CR staff officer
d. HERTZLER		Personnel section
e. TROPP		Administration
f. RISCHKE (of MIL-4-1191)		CR staff officer
g. SCHNEIDER		Card files
h. STUMP		Typist
i. ERHARD		Courier
j. GUBB		Operational Briefing
k. HUGLER		Training officer
l. LINZ		Driver
m. PREISSLER		Driver
n. HAUPT		Handy man
o. STUMPF (real name)		House
p. TROPP		Typist

*Refile Oct 3*

This T/O strength of 16 is four less than that suggested by ODEHM for a General Agency after the re-organization in the summer of 1949, and the total Agency strength of 250 is twenty below the recommendation. However, it should also be noted that at least two of the persons in this paragraph, HAASE and RISCHKE, appear again below in other capacities: HAASE as UV Oberrein, and RISCHKE as BV 2603. RISCHKE is the newest man on the headquarters staff, having joined at the beginning of November 1949. He spent the first two months familiarizing himself with the material in IIA's files, and in January 1950 began his active position as GS case officer for IIA. However, in all probability and according to KLAUSNER, RISCHKE is still only exploring possibilities for GS cases and not actually running a case.

5. In general, the addition of RISCHKE is another confirmation of the general personnel pattern of IIA's top members: that, unlike most of ODEHM, these people had their wartime intelligence experience in the West rather than in Russia. (Another example is cover name HERMANN, head of BV 2601's Munich office. HERMANN was with Art Armas during the War.) A possible element of too deep a western involvement lies in the fact that the permanent addresses of both HAASE and RISCHKE are in the French Zone of Germany. As for actual contacts with the French, HAASE admits to seeing Col. ROUSSARD, Innsbruck, and knows Major VASSY and BURET of his staff. The need for this "indirect" contact, according to HAASE, is that, since so much of ODEHM's Hungarian interest runs through Hungarian emigre groups and individuals in the French Zone of Austria, he cannot afford to work behind the backs of the French, especially as he is well known to the French anyway. RISCHKE is sometimes visited by French intelligence officers when he turns up at his home in Trier. LEIML claims to have had his last contacts with the French two years ago; at that time, at UTILITY's bidding, to further the ODEHM Espionage Plan, he had three meetings somewhere in Germany at the French Zone border: a M. MARRONIER, RST Lille, who on the second meeting greeted the man who had introduced himself as "M. LEIML" with "M. BENTZINGER."

6. The field offices of IIA:

- a. BV 2600/Nord: chief, former police-official Ludwig ALBERT (or MLL-48, Annex "B" for personnel.) Headquarters, Frankfurt/Main. Staff of 20 persons; 24 agents in western Germany and 5 in Eastern Germany; 12 sources in Western Germany and one in the East. This regional office covers the Frankfurt-Kassel area, Hessen, the British Zone. Main emphasis of this group has been on illegal and illegal KP activities, especially on courier routes centering on Frankfurt: Frankfurt-Hannover (RISCHKE), Hanover-Berlin, Frankfurt-Kassel (ZAHNWEITER), Frankfurt-Saarbruecken-France (BLONCH-LAHOTY), Frankfurt-Switzerland. Attention is also paid to Hessen-Thuringia KP communications lines. A third, and major, undertaking of BV 2600 is the security clearing of contemplated new ODEHM agent personnel living in Hessen or the British Zone. A fourth but minor interest is in KP cover and controlled organizations like TIV, etc. A fifth interest is the KPD Landesleitung Frankfurt and the activities of Prof. WALTER (formerly Rote Kapelle) of the University of Leipzig and still August lecturer at the University of Frankfurt.

**SECRET**

On 16 January 1950, at a meeting at LEIDL's headquarters in Karlsruhe, KLAUSSNER, who is officially in charge of ODEH's CI work, stated that this regional group's targets should be as follows: KP couriers, KP activities in the Bundesregierung stemming from the British Zone, the KP in the Ruhr; further, that the targets for this and other regional groups should be extended eastward to include Eastern German CI work, especially MGB and the political police.

b. IV 2601/Suad: chief, Franz GROSCHEK (of MOL-4-48, Annex "B", for personnel.) Headquarters, Coburg. Deputy chief, HERMANN, with offices in Munich. Staff of 12 persons, 3 interrogators, 4 agents in Western Germany, 23 sources in Western Germany and 1 in the East. Geographical area covered is Bavaria and Württemberg-Baden. Activities include, first of all, a border police network all along the Bavarian border. Connected with border activity, a network is being built at Cham, Oberpfalz, on the Czech border, which includes contacts and connections into CSC. Next, in the Munich area, attention is paid to illegal KP activities (through Josef WIESCHE, important IPD functionary, Bavaria), especially the Rotspänner veterans' activities (through an agent who was himself with THAKEMANN, still receives invitations to Eastern German veterans' meetings.) In and around Munich, another major interest is the security checking of services personnel for Kiblau and the external security of the Kiblau Command. IV 2601 is also entrusted with security clearance of contemplated ODEH agent personnel living in Bavaria and Württemberg-Baden. Activities of the CSC in Württemberg are watched, but without noticeable success. Finally, the three interrogators mentioned in the 7/0 form an interrogation group in Augsburg; the interrogators themselves are Russo-Germans (one is fm. Svatatirski), and they stress interrogations of returned PW's of CI interest (Amifa, etc.). These interrogators also supply the information which results in the WANTSEN reports.

c. IV 2602/Berlin: chief, KUNO. A staff of 10, with 3 sources in the Soviet Zone of Germany. KLAUSSNER has expressed dissatisfaction with the production of the field office and its general lack of activity. Legitimately, it should cover the Ministry of the Interior, the RIS, Eastern Zone and Berlin Volkspolizei. Minor work is accomplished in identifying Russian agents and informers. KLAUSSNER suggested as a starter that IV 2602 intensify efforts to tap the Volkspolice Vice President MATERN, pre-Hitler KP functionary of Königsberg, later a Gestapo-SD agent, now probably a Russian agent. This field agency operates on a monthly budget of DM 4,000/.

d. IV 2603: RISCHKE (of MOL-4-1191). Staff of 7 persons. Headquarters are located in Koenigsberg, near Bad Mergentheim. The new CI regional office, of Organization 114, destined to take over cases from other regional agencies when it is clear that they include lines going directly to the Russians. RISCHKE is now assisting IV 2601 in setting up its Cham network; see "b" above. Further, if American higher headquarters believe that a case like that of Joseph Wilhelm BAYER (of MOL-4-1166) should be kept alive, it will be turned over to RISCHKE for exploitation.

卷之三

27 (Sonderstabkommando) COMINT: The Russian Group of Forces in Germany, 1 graded source. The Staff of the personnel of the group has been told to drop mine targets, "Min-Mine" activities which produce "evidence of espionage" without tangible proof. Having concentrated on the Soviet March 1945 in Frankfurt, the group has been instructed to concentrate now on the Soviet March 1945 in Berlin-Berlin. The group also performs special interrogations of Russian deserters, etc. Recent special interrogations have included, for example, the case of **AMBROZI**, Russian deserter, of MUL-12530. In another case, **SP-11** is agent **THEODORE GILBERT** (of MUL-1357 and 146, set out to "Wiesbaden" was involved in an episode in Munich, identifying US any deserter who wanted to defect to the Russians.

**5. ST CLOUD.** The OEMI Hungarian group of Paul-GOOSY & STROBL. A staff of 3 persons, with 3 agents. Members of this group include a St. Cloud resident and Julian STROBL. This group previously was used, loosely in and out of Austria (of MIL-3285). By MIL-3285, the group was largely in use outside Germany, or undertaken trips to areas of them may now operate outside Germany. The group is Austria without prior OEMI clearance in each instance. The group is held in security and is spreading of Hungarian shipping and illegal espionage on the Danube as seen from Passau, via the Hungarian Lloyd in that town. In the Munich area, the group reports on suspicious organizations. (In the past, PERIODIQUES and PHILIPPEAU have been involved with this group, especially in the hung case, of WISM-0555 PERL-151, further, also JOURNAL DE LA RÉGION, and other periodicals, and other organizations.

卷之三

卷之三

SECRET

the *Journal of the Royal Society of Medicine* and *Medical Record* are the best sources of information on the subject.

Section 11a. It does not cover all its activities or contacts. For example, in addition to its above mentioned contacts to various Western German and American governmental (especially Ministry of Interior) and high police contacts, we have mentioned its role in *FOBEM* agent setting, but it is still a secret question how much Western German Police circles are contacted for file cables on *FOBEM* behalf. It is also Organisation 11a which is entrusted with investigating on personnel in the *COMINT* field related to *FOBEM* and *GRU*.

Similarly, KUSSNER has requested the top section of Organisat's LIL to set down all material about late Kapelle personnel, their present whereabouts and activities (predicted by current intelligence data available). Likewise, the names, addresses, and present activities of all other members of the British, Canadian, and American armed forces, and their dependents, who are known to be in the United Kingdom, are to be supplied by the military services.

6. Previous negotiations have been made of LAM's and Dr. HALE's disclosure to the underworld in August-September 1936 at the readiness of Rothchild-Nichols Justice Committee to finance German group for carrying out espionage activities. At the time, some of them report to be prepared for military use.

SECRET

**SECRET**

was no "orthodox" chart. It was considered best not to bring up the term, which might directly.) That such activities have been carried recently, is revealed in ODEA's statement that Organization [REDACTED] was interested in an Industrial Security Service (Dienstleistungsförder-Sicherheitsdienst) to be set up in Stuttgart (Büro [REDACTED]). In this instance, a police official [REDACTED] of Stuttgart (of B.I.-I-118) direct, emulated leads supplied by [REDACTED] and then decided to exp. ODEA's chart, and then decided to exp. ODEA's chart.

b. Lastly, for the purpose of this preliminary survey, Organization [REDACTED] is interested in ODEA's newest training schools. During the latter half of 1949, LADL and HALS were in frequent conference with the training staff to set up a special training course for CI officers attached to the various ODEA field organizations. This course is being given at one of ODEA's schools (the other is at Bonn) in Pforzheim, Germany, with [REDACTED] as chief instructor (or inner [REDACTED] B.I.-I-19).
